

When an Emergency Strikes...

WILL YOU BE READY TO SAVE A LIFE?

TRAINED.

EMPOWERED.

PREPARED.

While you can't predict when an emergency will occur, you can be prepared. In less time than you think, American Red Cross training can give you the vital knowledge and skills you'll need to respond to a life-threatening situation with confidence.

The Adult and Pediatric CPR/AED courses incorporate the latest science and teaches students how to respond to breathing and cardiac emergencies to help victims of any age – the adult/child course (12 years and older) and pediatric course (infants and children up to 12 years of age). Students who successfully complete these courses will receive a certificate for Adult and Pediatric CPR/AED valid for two years.
